## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's response to non-final rejection dated January 10, 2006 is hereby acknowledged. Cancellation of claims 1-12 and 19-25 is acknowledged.

### ***Allowable Subject Matter***

2. Claims 13-18 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor fairly suggest the device structure as presented in independent claims 13, 14 and 16. Emphasis is being placed upon the provisions of a third metal layer having a controlled work function that includes Hf, Ni or Ir layers and a fourth metal layer having an uncontrolled work function that includes either TaN or TiN layers formed on the third metal layer, in combination with other limitations of the said claims and its dependent ones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tsunashima et al (US 6,376,888) discloses a transistor and the formation thereof.

Zhang et al (US 5,563,426) discloses a thin film transistor and the formation thereof.

Hsu (US 5,677,214) discloses the formation of a raised source/drain.

Cabral, Jr. et al (US 2005,0051854) discloses the use of metals to form a metal gate.
